Pari Gul Jomezai

Department of Radiology, Bolan Medical Complex Hospital, Quetta, Pakistan

Dr. Pari Gul Jomezai is an accomplished radiologist, educator, and healthcare leader currently serving as Associate Professor of Radiology at Bolan Medical Complex Hospital (BMCH), Quetta. She is also the Focal Person for Balochistan's first Breast Cancer Screening Centre, a milestone initiative established under her visionary leadership through the Bolan Houston Breast Cancer Project—a collaborative philanthropic effort linking local clinicians with the international medical community.

A dedicated academician, Dr. Jomezai has played a pivotal role in developing structured radiology training in Balochistan, supervising postgraduate residents, and leading curriculum design at Bolan Medical College. Her leadership in academic administration has strengthened both educational standards and service delivery across radiology departments in the region.

Dr. Jomezai is the Joint Secretary of the National Breast Radiological Society of Pakistan (NBRSP) and an active member of the Radiological Society of Pakistan (RSP). She also served as Secretary General of the RSP in 2022, reflecting her long-standing commitment to advancing radiology education, research, and women's imaging nationwide. Her scholarly focus encompasses breast imaging, pediatric radiology, and radiology education. She has authored more than 25 national and international publications, organized continuing medical education programs, and contributed extensively to the professional development of young radiologists across Pakistan.

Her continued involvement with RSP and NBRSP highlights her leadership in national academic collaborations. She has co-chaired scientific committees, contributed to the development of breast-imaging guidelines, and promoted multidisciplinary approaches to breast cancer care.

Dr. Jomezai also serves as a reviewer for several medical journals, bringing academic rigor and ethical oversight to radiological scholarship in Pakistan. She has been a featured speaker at major national conferences and continues to mentor the next generation of radiologists through her dedication to education and outreach.

With her academic depth, organizational leadership, and unwavering commitment to women's health, Dr. Pari Gul Jomezai stands as a central figure in advancing breast imaging and radiology education in Pakistan.
